III. WRITING GUIDANCE / SUGGESTED ANSWERS

Task 1: Word Ordering (Sắp xếp từ thành câu hoàn chỉnh)

- **Seat belts keep us safe in cars.**
- *Teacher's Guidance:* Let's build this sentence together. We start with the plural **Subject** "Seat belts". Next, we need the active **Verb** "keep". What do they keep? "us" (object). In what state? "safe" (adjective). Where? "in cars" (prepositional phrase). Put them together: *Seat belts keep us safe in cars.*
- *Self-Correction Tip:* Make sure you capitalized "Seat" and placed a period . at the end. Check that "keep" has no 's' since "belts" is plural.

Task 2: Sentence Completion (Hoàn thành câu)

- **1. I always wear a seat belt when I sit in a car.**
- *Teacher's Guidance:* The prompt starts with "I always wear a seat belt when". The word "when" connects two clauses, so you need to add a full clause (Subject + Verb + Object) showing the time or situation. For example, *I* (subject) + *sit* (verb) + *in a car* (prepositional phrase). This gives: *I always wear a seat belt when I sit in a car.*
- *Self-Correction Tip:* Check that your added clause has a subject "I" and a verb "sit".
- **2. Car safety is important because it saves many people's lives in accidents.**
- *Teacher's Guidance:* Starting with "Car safety is important because", you need to add a full clause stating the reason. For example: *it* (pronoun subject) + *saves* (verb with 's') + *many people's lives in accidents* (object). This gives: *Car safety is important because it saves many people's lives in accidents.*
- *Self-Correction Tip:* Check that "saves" is singular to agree with "it", and "people's" uses an apostrophe for possession.

Task 3: Translation (Dịch câu)

- **1. The Swedish engineer invented the three-point seat belt.**
- *Teacher's Guidance:* Let's translate: "Kỹ sư người Thụy Điển" is "The Swedish engineer" (Swedish must be capitalized). "đã phát minh ra" is "invented" (past tense). "đai an toàn 3 điểm" is "the three-point seat belt". Put it together: *The Swedish engineer invented the three-point seat belt.*
- *Self-Correction Tip:* Ensure you spelled "engineer" and "Swedish" correctly, and used the past tense "invented".
- **2. Seat belts help protect drivers from serious injuries.**
- *Teacher's Guidance:* Let's translate: "Đai an toàn" is "Seat belts" (plural subject). "giúp bảo vệ" is "help protect" (help + base verb). "tài xế" is "drivers" (plural). "khỏi chấn thương nghiêm trọng" is "from serious injuries" (adjective "serious" before noun "injuries"). Put it together: *Seat belts help protect drivers from serious injuries.*
- *Self-Correction Tip:* Verify the spelling of "injuries" (plural of injury) and "serious".

Task 4: Short Description (Mô tả ngắn)

Suggested Model Answer:

"Nils Bohlin invented the three-point seat belt in 1959. Its purpose is to protect drivers in car accidents. This safety invention has saved millions of lives." (26 words)

- *Teacher's Guidance:* Let's learn how to write a description of an invention using facts! We can structure it into three sentences:

1. **Sentence 1 (Inventor & Year):** Tell who invented it and when (use past simple). (*Nils Bohlin invented the three-point seat belt in 1959.*)

2. **Sentence 2 (Purpose):** Explain what it is for. (*Its purpose is to protect drivers in car accidents.*)

3. **Sentence 3 (Impact):** Describe its long-term historical impact (use present perfect). (*This safety invention has saved millions of lives.*)

This three-sentence outline is perfect for describing inventions in IELTS!

- *Self-Correction Tip:* Use "in 1959" (preposition "in" for years) and "has saved" (present perfect for ongoing impact).

Suggested Model Answer:

"Hi Phong,
